18. and leaded glass transoms opens onto porch. Porch has banded columns with nailshead motif, stone balustrade and entablature roof with nailshead motif. Brick diamond shape design in right side. Main entrance faces diagonally out from north side. Entrance has entablature roof, banded columns with nailshead motif, round arched opening with keystone and egg and dart molding. Main door is wrought iron with glass.

Two stone cottages in rear. East cottage has gable roof with slate tile. Stone chimney stacks. Transomed windows, stone bands, wood porch with round arched openings, and stick balustrade. West cottage has truncated hip roof with slate tile, and stone chimney stacks.

20. The library which occupies the entire front of the first floor, has green brocaded velvet walls. The dark green marble fireplace of that room is exquisitely carved are the extensive oaken bookcases that line two walls. Between two bookcases is a recess built to fit exactly.

The carved woodwork of the reception hall and dining room is white. Most walls of first floor rooms are covered with rare English materials. The balustrade is wrought-iron topped by a mahogany rail. The entry floor is marble. The front door has iron grill work.

Overlooking the garden is a solarium, floored with marble mosaics. The window frames are wrought-iron.

The second floor sleeping rooms have a bath and dressing room which have cupboards with enclosed shelves and drawers extending from floor to ceiling. Bathrooms are white marble.

There are three safes in the house. In the front bedroom occupied by Mrs. Mathews is a small safe for jewelry. There is a large safe small safe for jewelry. There is a large safe in the pantry for silver. And a third one is located in the small first floor room that was Mr. Mathews den.

The six room cottage behind the house predates the house by a number of years. It was the home of former Buffalo mayor Jonathan Scoville. When Scoville lived here the property extended from Delaware to Richmond Avenue. Mathews bought the cottage from Scoville and he and Mrs. Mathews occupied it for a few years before building the larger house.

George B. Mathews started from humble beginnings. He made his fortune in the flour milling industry along with partner Jacob Schoellkopf. The partner installed the first rolling mills, as opposed to millstones, in the northeast. In 1877 he assisted in developing power plant in Niagara Falls which increased the milling companys influence.

Both Mr. and Mrs. Mathews lived until they were 95. Mrs. Mathews was identified with Musical organizations of Buffalo and was a member of the Twentieth Century Club, Garret Club,

and Buffalo Country Club. The Mathews gave one million dollars to the Buffalo YMCA to be used chiefly to make YMCA facilities available to Black men and boys. They also gave money to Buffalo Academy of Fine Arts and the Music School of the University of Buffalo.

In 1942 after George Mathews death the property was sold to the children's Aid Society for the Prevention of Cruelty to children as a home for Children with emotional problems.

Courier Express 6/1/52/

22. THEME:  
Residential-English Tudor

20. In 1873 when Mr. Richmond bought this property, it extended back to Richmond Avenue, which was given its present name in 1879 in honor of him. In 1887 the original Richmond family home was burned to the ground. The following year the present mansion was built.

Jewett M. Richmond was president of the Marine Bank, director of the Buffalo Board of Trade, and member of the City Council. He was asked to accept the nomination for mayor, but declined in favor of his good friend, Grover Cleveland.

During the panic of 1873, Richmond built the Buffalo and Jamestown Railroad. His interests also included the Buffalo Southwestern Railroad and the Buffalo Gas Light Company. He was a founder of the Buffalo Club and active in the Country Club of Buffalo. He was a trustee of the Charity Organization Society, a leader in the Young Men Association, from which the Public Library developed, and a generous contributor to the Buffalo Historical Society, Society of Natural Sciences and the Academy of Fine Arts.

In 1918 Thomas B. Lockwood bought and remodeled the mansion. Lockwood is remembered chiefly for his gift of the Lockwood Memorial Library and his book collection to the University of Buffalo. He established a chair of music at University of Buffalo in memory of his wife Marion Birge Lockwood. He served on the board's of directors or trustees of the Buffalo State Teachers College, Buffalo Historical Society, Grosvenor Library, Buffalo Seminary and Union College of Schenectady. He retired at an early age from his law practice with his father, Daniel Lockwood, who was a congressman, and later US Attorney General of New York.

Lockwood published privately two little known works: Robert Louis Stevenson's the Castaways of Soledad and ten love letters of Eugene Field.

Lockwood died in August 1947. His widow remained in the house until 1950 when she sold it to the Catholic Diocese of Buffalo for \$52,000. The home was converted to the Mother of Mary Retreat House. In 1969 it was converted again, this time as a preparatory Seminary for Boys.

22. THEME:

Residential-Chateausque

Excellent example of the French Chateausque Style. Delaware Ave. became the most prestigious street in the city around the turn of the century and thus most of the larger residences that were built in the city are on this street.

Charles W. Goodyear, is the original owner. He was a trustee of the Buffalo Normal School, now Buffalo State, an organizing director of the Pan-American Exposition, and a president of the Buffalo Club. Goodyear made his fortune in the lumber business. He owned lumber tracts in Louisiana, Mississippi and Pennsylvania. He died in 1911.

Ella Conger Goodyear, wife of Charles, lived here until her death in 1940. She conducted Bible classes in her home and was the author of The Journey of Jesus.

Shortly after Mrs. Goodyear's death, the mansion was sold to the Blue Cross Corp., which made slight alterations and occupied the mansion until its sale to the Catholic Diocese of Buffalo in 1950 for \$85,100. In 1953 and 1959 additions to the mansion were built. The building is presently Bishop McMahon High School.

Edward B. Green designed the Goodyear mansion at a cost of \$225,000. The large reception hall has a marble mantel ornamented with a relief sculpture, "Life" by Karl Bitter, sculptor of the lions at the base of the McKinley Monument. The relief weighs two tons and is placed on a foundation extending to the cellar. The library, hallways, and living room were paneled in walnut. Mr. and Mrs. Goodyear's bedrooms were paneled with solid mahogany.

Today all the rooms of the mansion have been converted to classrooms. The adjoining bathrooms to the eleven bedrooms are used as locker rooms for students.

(Indicate if building or structure is in an historic district)

Among upper class residential homes of Bryant. Children's Hospital is located across the street to the west. St. George's Square is a dead end street borders.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE. (including interior features if known):  
Two and a half story Georgian Revival Style. Truncated hip roof. Entrance portico has Doric columns, triglyphs and metopes and guttae in frieze. Modillions under cornice. Glass paneled door has sidelights and transom. Straight-headed windows, multi-light with tracery in transom. Cast iron grills, keystone and relieving arch. Second floor balcony has cast iron balustrade. Straight-headed windows on second floor eight over one lights.

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: \_\_\_\_\_

c. 1905

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

18 cont'd Keystone and relieving arch. Shuttered. Modillions under roof eave. Hip roofed dormers have pair six light windows. Brick quoins on ends of bay and ends of building. Projecting bays have straight-headed windows, eight over one light. Right entrance has large cast iron hood with semi-circular pediment. Large cast iron brackets support. Wood paneled entrance has pilaster strips flanking with large consoles in capital. Sidelights. Large Palladian window over entrance.

20. Excellent example of the Georgian Revival Style. As Delaware Ave. became the city's most prestigious street, large homes were also built near Delaware on the street that crossed Delaware Ave. Bryant St. is a good example of this, with larger homes near Delaware Ave. and more modest homes on the western end of the street.

Residential-Spanish Colonial

20. Rare woods were used in the interior. In the living room and dining room the wood work was fine mahogany. In the library, caucasion walnut was used.

A pipe organ was installed in the spacious hall which could be played automatically, the volume and tone controlled by stops. Later, a modern Hammond organ replaced the original. Third floor was once a ballroom and billard room.

Orin Elliott Foster was a farmer until he was 28 then he became a drug salesman, whose route was so extensive that it included Newfoundland. In 1876, in partnership with Canadians Milburn and Greenwood, Foster established his patent medicine factory on Main Street. Later the company developed into two divisions: Foster Milburn Co. and Foster McClelland Co. His business interests included Foster Bolt Nut Co., which he was president, the Union Fire Insurance Co., of which he was chairman of the board of directors, and both of which he was director. Foster's gifts to the University of Buffalo totaled a half a million dollars. He served on the boards of Albright-Knox Gallery, Joint Charities, Community Fund, and Children's Hospital.

22. THEME:  
Residential Georgian Revival

20. Library paneled in oak with floor to ceiling bookcases. Presently used as a chapel. The second floor sleeping room extends the entire width of the house. Entering the mansion through the front door, one comes into a hall that extends to the dining room. At the right is a small reception room, on the left a spacious living room. The library looks out upon the garden through large windows and opens onto an attractive stone terrace. Behind these rooms are dining room, pantries and kitchen. Except for the library, all rooms of the houses including the nine bedrooms on second and third floor are used exactly as when the mansion was a home.

17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS:

(Indicate if building or structure is in an historic district)

Within local Linwood Preservation District. Among a variety of styled residential buildings, Linwood Avenue at the turn of the century became one of the most fashionable locations in the city in which to live, with its fine homes and large lots.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
 Three story building. Flat roof. Stone basement. Front entrance has semi-circular hood with decorative roof cresting. Wood paneled door with sidelights and pilaster strips flanking. Entablature with triglyphs and metopes. Above hood is a round arched tripart window with keystone and molding surround. Large brackets support balconet with fret design in base. Double glass doors with eight light transoms and lintel having decorated panels. Flat headed windows, SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION:

c. 1905

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

18 cont'd ten over one lights with lintel and decorated panels. Three story towers flank ends of building. Stone belt course separates second and third floor. Stone entablature has triglyphs, metopes and guttae in frieze. Dentils under crowning cornice. Parapet has pedimented panels with statuary on pediment.

20. Unique apartment building. Similar building is directly next door at 63 Barker (119-34). Linwood Avenue developed from the 1850's until the 1920's thus many architectural styles can be found on the street.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
Two story Italianate Style. Low pitch hip roof with cupola removed. Paired Italianate brackets and dentils in eaves. First and second floor windows are segmentally arched with four over four light sashes. Front wood paneled double doors with two light transom, front porch has brackets, pediment over steps and tuscan columns. Two story brick addition on rear.

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: \_\_\_\_\_ c. 1867

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

Excellent example of the Italianate Style. One of the earlier homes that was built on Linwood Ave., which developed during the years of Buffalo's industrial growth and thus displays a variety of styles from the second half of the nineteenth century. The Cornwall family, lived here in 1867. Francis E. Cornwall, a lawyer, moved to Buffalo about 1857 from Lyons NY. On election day, Nov. 2 1869, he died of typhoid fever. On that same day he was elected Judge of the Supreme Court of New York State. His widow and six children survived him.

(Indicate if building or structure is in an historic district)

Within local Linwood Preservation District. Among residential structures of various styles. Linwood Avenue at the turn of the century became one of the most fashionable locations in the city in which to live with its fine homes and large lots.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):

Two and a half story Italianate Style with stick styling. Truncated hip roof. Vaulted front entrance porch has Doric columns supporting entablature. Round arched entrance has glass paneled carved door, paneled sidelights and leaded elliptical transom. Round arched multi-light french styled windows on first floor. Leaded elliptical transoms. Round arched two over two light windows in second floor

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: c. 1869

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

18 cont'd right projecting wing. Pair round arched windows on second floor to the left. Gabled oriel extends from right wing. Three windows. Vertical clapboard in top of gable. Bargeboard. Gabled dormer has fluted pilasters and a pediment. Rosette in top of gable. Bargeboard. Brick garage in rear of property c. 1920.

Good example of the Italianate Style. The front porch, dormer and windows, in front gable are probably later additions. Linwood Avenue developed from the 1850's to the late 1920's, thus many architectural styles can be found on the street. Horace Parmelee of Parmelee and Bonnell manufacturers of lanterns, etc. located at 71-75 Lloyd Street lived here in 1869. Her formerly lived at 191 Franklin Street.

(Indicate if building or structure is in an historic district)

**Among prestigious residences adapted for business offices, apartment buildings and religious structures. Within Linwood Preservation District.**

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
**Richardson Romanesque Style church. Hip roof. Front porch has round arches with rusticated relieving arch, square short supports with foliate carved cushion capitals. Entrance flanked by engaged polished stone columns with cushion capital. Round arched entrance has double round arched glass paneled doors with stain glass transom. Columns flank door with spandrels decorated with acanthus leaf carvings. Windows flanked round arched stain glass with transoms.**

19. DATE OF INITIAL CONSTRUCTION: built 1894

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

**18 cont' d som rusticated relieving arch. Gabled facade has large round arched with rusticated eyebrow window head. Circular tracery with center cross. Side aisle entrance with tower on right has double round arched glass paneled door. Rusticated lintel and stain glass tympanum. Second story has three story round arched panels with lower story having straight-headed stain glass windows. Rusticated arch and key stone. Top story has three round arched windows with arch and keystone. Pyramid roof has gabled dormer with round arched windows. Left side aisle entrance with tower. Second floor round arched recessed panel with straight-headed stain glass windows and round arched window. Three round arched windows at top story.**

21. SOURCES: 20. see attached sheet.  
**Where Buffalo Worships by Buffalo Council of Churches 1927 pg. 9**

22. THEME:  
**Religious-Richardson Romanesque.**

20. Excellent example of the Richardson Romanesque Style as it was used for ecclesiastic architecture. The Delaware Avenue Baptist Church had its origin in the Olivet Baptist Mission, situated on Delaware Ave. below North Street. The name presently used became the city's most prestigious street in the late 19th century thus most of the city's largest residences can be found on this street. Since the early 20th century apartment building and commercial buildings have replaced many of the original residences.

19. DATE OF INITIAL CONSTRUCTION: c. 1878

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
 One of the early houses to be built on Hodge Street. Hodge Street was laid out in the 1870's and developed in the 1880's and 90's as one of Buffalo's better residential streets. House retains its original gable trim while many houses in Buffalo have lost this decoration. Mr. and Mrs. William C. Sweet, of OP Ramsdell, Sweet and Co, wholesale boots, shoes, rubbers located at 215-221 Washington, lived here in 1885. The Sweets formerly lived at 116 Hodge.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
18 cont'd borately carved parapet has cut-out trefoil panels with spires and knobs. Nave sides have small lancet arched windows with tracery. One story stepped buttresses. Gabled flared end dormers have pair Gothic arched windows with cut-out pattern in tympanum. Trefoil cut-out pattern in bargeboard. Excellent example of English Gothic ecclesiastic architecture. This church was originally the North Presbyterian Church which was organized in 1847. The first church for his congregation was built on Main Street near Chippewa which lasted from 1847 to 1904. That location later became the site of Shea's Hippodrome. From 1904-1907 the congregation held services, in the 20th century

20. Club and in Temple Beth Zion. In January 1907 the New Church at Delaware and W. Utica was dedicated. It cost \$220,000.

In 1952 the North Presbyterian Church sold its building to Annunciation Hellenic Orthodox Church for \$250,000. The previously location of the Greek Church was 361 North Oak. A petition of 200 members of the Greek community opposed the sale of the fire damaged Oak Street church. They wanted to break from the members of the congregation moving to the new church. The Greek Church moved into this building in January 1953. They spent \$40,000 to remodel the church to make it conform to Orthodox standards. The church has a 70' tower.

17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS:

(Indicate if building or structure is in an historic district)

Among residential buildings, mid and late 19th century. Richmond Avenue runs into Symphony Circle. In 1869 Frederick Law Olmsted designed the public park system. He planned Richmond and Porter as a link between Delaware and Front Parks, the circle first of five in the city landscaped into a new system of broad parkways.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
Two and a half story Queen Anne Style. Hip roof. Two story front porch has Doric columns, spindle balustrade and dentils under cornice on first floor. Paneled square supports and spindle balustrade on second floor. Glass paneled door with fluted pilaster strips and sidelights. Tripart window on first floor has leaded top lights. Second floor bay window. Tripart second floor window  
**SIGNIFICANCE** with leaded top light. Three story tower with polygonal

17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS:  
(Indicate if building or structure is in an historic district)  
Among residential buildings, a combination of late Victorian homes, 1880-90, and middle class early 20th century homes. Richmond Avenue is a broad parkway that intersects with Symphony Circle. It is an excellent example of Frederick Law Olmsted's design for Buffalo's Public Park System.
18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
Two and a half story Queen Anne Style. Hip roof. First floor rusticated stone. Front porch has fluted Ionic columns. Double glass paneled double doors. First floor window has large sidelights flanking. Three story tower on right has tent roof with flared ends. Flat headed windows. Round arched windows on third floor. Pedimented dormer has Palladian Styled windows with leaded glass sidelights. Sides have three story gabled bays.
19. DATE OF INITIAL CONSTRUCTION: \_\_\_\_\_  
c. 1898
- ARCHITECT: \_\_\_\_\_
- BUILDER: \_\_\_\_\_
20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
Good example of the Queen Anne Style. Richmond Avenue was the first street laid out by Frederick Law Olmsted as part of his city wide park plan. Mr. and Mrs. Thomas Henning lived here in 1898. The Hennings moved here from 253 Richmond (129-18) next door. Mr. Henning was superintendant of the power house of the Buffalo Railway Company.

22. THEME:  
Religious-Queen Anne

20. Unique church in the City of Buffalo with a society of twelve people; but its members were soon dispersed.

The church originally had a small cross on top of the tower and one at the peak of the gable. There was no porch on the front entrance. On the front of the building is a panel which says "The word of the Lord endureth forever".

The building is constructed with a skeleton frame work of built-up timbers, formed and interlocked in such a manner as to make it exceedingly strong. It is composed of dry scantlings and plankings, dressed to uniform size and and dowelled together with wire nails. This frame is covered with matched plankings, dressed, forming the interior wall finish. This is covered externally with damp proof felting and faced with an epidermis of pressed brick work, anchored to this wood framing. The whole forms a light, dry, substantial wall and is considered a better non-conducting jacket than the ordinary stone or brick wall.

**20. Good example of the Colonial Revival Style in a large house. Mr. and Mrs. Donald C. Sweet lived here in 1892. Mr. Sweet bought this property from Grover Cleveland and lived here until death on 2/20/58. Mr. Sweet was born in Buffalo and was a graduate of the Buffalo State Normal School. In 1883 Mr. Sweet formed his own lumber business. Six years later he sold it and founded an insurance and real estate business in the Ellicott Square Building. He remained there until he retired in 1932. During the Pan American Expo, Mr. Sweet ran the "Streets of Mexico" a slide show depicting life in Mexico. His wife Cornelia Tomson died in 1920.**

20. Good example of the Queen Anne Style as it was built in Buffalo in brick. Mr. and Mrs. J.L. Romer lived here in 1888 to 1920. John L. Romer was a member of the law firm of Day and Romer at 202 Main. Mr. Romer formed a law practice with Mr. Day which continued until 1899, when it was dissolved and Mr. Romer formed another partnership with Charles M. Harrington, which was dissolved in 1911. From 1911 until his death Mr. Romer practiced law in his own offices. For many years he was attorney for the Scholekopf interests and was instrumental in the purchase of the hydraulic canal and the Mile Strip in Niagara Falls.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):  
 Two and a half story Georgian Revival Style. Hip roof. East side on first floor has terrace with cast iron balustrade. Round arched windows, two sash ten lights each semi-circular transom. Eyebrow window head with keystone. Belt course. Second floor straight-headed windows, two sash six lights each. Lighted transom. Cast iron balustrade. Entablature has end paired scroll consoles. Dentils. Semi-circular pedimented dormers, and supports. Stone quoins. North side has entrance, with glass paneled doors. Stone lintel and quoins.

19. DATE OF INITIAL CONSTRUCTION: c. 1905

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
 Excellent example of the Georgian Revival Style. Mr. and Mrs. Roscoe R. Mitchell lived here in 1915. James H. Mitchell on Nov. 22, 1883. In 1904 Roscoe received a BA from Williams College and three years later he graduated from Albany Law School. In that year Roscoe moved to Buffalo and joined Norton, Penney and Sears. Two years later he was admitted as a member to that firm which he was associated with until 1914. On April 18, 1910 he married Ada D. Butler, sister of Edward H. Butler. In 1914 Roscoe formed the firm of Mitchell and Albro with Preston M. Albro. In 1917 they merged with another firm to form Bedford, Lytle Mitchell and Albro. Roscoe was active in Buffalo Liberty Loan drives during the WW I. He was a member of the Niagara Frontier Bridge Commission, as well as many social clubs. He died on June 15, 1932 at age 48 after a long illness.

18 cont'd de, pedimented eaves steps with foliate carving in  
tympanum and pediment with same decoration over driveway. Porch  
columns rest on wood paneled bases.

20. Typical Queen Anne Style house with a variegated roof line.  
Captain and Mrs. Jacob Imson lived here in 1898. Capt. Imson was  
born in a farm in Central NY in 1815. He came to Buffalo when he  
was 17 and worked as a deck hand. He worked his way up to Captain  
and then became financially interested in ships. He bought several  
ships one of which was the propeller, St. Joseph, built in 1846  
and which was then the largest ship on the lakes. Later he bought  
the Bluekeye State which he ran between Bflo. and Cleveland, carry-  
ing both passengers and freight.

Among large houses with wide lawns of West Ferry. A fence is in front and the house is set far back from the street with many trees surrounding.

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):

Two and a half story Tudor Style. Gable roof with slate tile. Corbelled chimney stacks. Projecting gabled wing on right has first and second floor paired windows with stone label molding. Gabled wing on left has second floor windows with stone label molding and first floor windows with label molding. Section connecting wings has flat headed second floor windows with stone surround, first floor paired windows

SIGNIFICANCE

C. 1920

19. DATE OF INITIAL CONSTRUCTION: \_\_\_\_\_

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

18. ( continued) with stone cornice mold, and front entrance with molded stone surround. Main entrance on west side has wood double doors with oversized hinges recessed in in pointed arch opening having molded stone surround. A thys's carving is to the right of the door and a flower carving is to the left. Brick garage in rear of property.

20. Good example of the Tudor Style as it was built in Buffalo. Mr. and Mrs. William Hudson lived here in 1928. William Hudson was President of the J.L. Hudson Co., Mens and Boy's outfitters at 410-414 Main Street. The house was built on land that was once part of the Albright Estate, which took up most of the block between Elmwood and Delaware Avenues. Ferry Street was the main route to the ferry that ran between Buffalo and Port Erie, Canada.

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
 Good example of a Gothic Styled church. The first Unitarian Congregational Society was organized in 1833. Millard Fillmore was a member of this church, and Abraham Lincoln attended its service when he was in Buffalo in 1861. The Unitarians first church was located at Eagle and Pearl Sts. The church building at Eagle and Pearl is now being used as an office space.

20. was president of HD Taylor Co. carriage hardware and auto supplies at 101-9 Oak. Mrs. Wettlaufer who died December 1963, was interested in GirlScout work. Dr. Wettlaufer who died in 1959, was closely associated with work for the blind and served as president of the board of the Buffalo Assn. for the Blind for more than thirty years. The Wettlaufer Clinic, an eye and ear hospital was founded by Dr. Wettlaufer. He was also member of the Uncle Sams, a republican organization.

When the house was built properties on both sides were vacant. C. Taylor Wettlaufer remembers "During WW I we raised potatoes for the orphan asylum on Elmwood Ave. on the lot to the south facing Delaware and Cleveland. Dad always used to carve of the orphanage for Thanksgiving and Christmas Dinner."

In July 1964 Rubino Funeral Homes Inc. purchased the home. In order to perserve the original atmosphere of the place, Rubino planned to purchase all furnishings not desired by the Wettlaufer family. Paschal C. Rubino president of the business is on the Buffalo Planning Board, advisory board of Rosary Hill College, board of the Boys Club of Americal, director PAL, and the united fund. He is also president of the Buffalo Board of Education. He is in business with his brothers, Joseph Jr. and Frank. Their father, Jospeh Rubino, launched the family in the mortuary business in 1910.

22. THEME:

Residential-Georgian

20. The home at 1272 Delaware was built in 1913 by the architectural firm of Green Wicks for Mr. and Mrs. Albert F. Laub. Laub was president of George Laub's Sons, tanners, a business which was founded by his grandfather, George C. Laub, in 1846. Laub was vice-president of the Tanners Council of America, a member of the Board of Commissioners of the City Hospital, vice-president of the board of trustees of the Nichols School, secretary of the Buffalo Fine Arts Academy, director of the Buffalo Art School, and a trustee of the YMCA. Laub died at age 51 in 1921. His wife, four sons, all of whom were involved in the family business, and daughter continued to live in the house after his death. In June 1942 Mrs. Laub gave the house to the Council of Churches as a memorial to her late husband. The Council is an organization of over 150 churches. It was organized in April 1913.

The house was originally built on two acres of land, surrounded by an iron fence. It had a brick driveway and brick walks. The garden behind the house had a fountain, and tennis courts. Today, a large section of the garden is a parking lot. The main floor has a living room facing Delaware Ave., a sun room on the south, a dining room and library. The basement has an assembly room with fireplace and stage, and a seating capacity of 200. The exterior of the house is limestone, much of it quarried near Williamsville.

The Laub home is on a site of the old Jubilee Water Works. Formed in 1826, the Water Works supplied water to the Black Rock area through hollowed out logs used as pipes. Later the works extended to include parts of Buffalo. The water works continued to supply water to Black Rock until 1890 when Lake Erie became the water supply. At that time the water works was rerouted to the Gates Circle fountain, Delaware Park Lake, and Forest Lawn Cemetery. When the property was sold, proceeds were applied to the construction of the Jubilee Library on Niagara Street in Black Rock. The deed to this property contained a clause prohibiting use of the water by the owners of the property.

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

**18 cont'd over one light sashes excepting on second floor which has eight over eight light sashes. Second floor has stone band above windows with keystone. First floor has rusticated stone blocks, keystones over some windows, and round arches with fan carvings over others. Main entrance has dentiled cornice, frieze with "Twelve Ninety" enscribed, leaded glass transom, and stylized ionic pilasters steel joist construction, bar type floor and roof joints, birch and tile walls, steel frame protected concrete floors and roof. 2" concrete floors on wire lath on top of loists with 7/8" plaster ceiling under bay joists. Building has 73 apartments.**  
**20. see attached sheet.**

21. SOURCES:  
**Buffalo City Sanborns, 1916**

22. THEME:  
**Residential=Second Renaissance Revival**

20. Typical apartment building that was built in the Delaware District, in the early 20th century. Throughout the 20th century apartment buildings have replaced private residences on Delaware Ave. Delaware Avenue became the city's most prestigious street in the late 19th century, thus most of the city's largest residences can be found on this street.

#### GATES CIRCLE FOUNTAIN

Gates Circle was originally called Chapin Place and was a circular park at the intersection of Lafayette Avenue and Delaware Avenue. In 1902 Mrs. Charles Pardee offered to donate a fountain to the city of Buffalo to be located in Chapin Place, in memory of her parents Mr. and Mrs. George B. Gates. Gates was owner of the Ellicott Square Building.

After considerable opposition to the project by men of the GAR who disapproved the changing of the name from Chapin Place to Gates Circle, the Fountain was finished and operating in September, 1903. The area was originally named in honor of Colonel E.P. Chapin who fought in the Civil War.

The fountain has sustained damage from vandals and other causes. But has survived intact. In 1972 a traffic improvement program called for the relocation of the fountain. This plan was abandoned after the area was approved for Landmark Designation by the Buffalo Landmark and Preservation Board, 3/10/77.

 Front dormer has gable roof, shingle siding and two sets of paired windows.  
 Polygonal roofed turret on right corner. Windows are flat headed single light  
 double hung. Second floor bay. Projecting second floor has shingled band at  
 base. Two first floor bays. Front wood paneled door with window opening.

#### SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: \_\_\_\_\_ c. 1888 \_\_\_\_\_

ARCHITECT: \_\_\_\_\_

BUILDER: \_\_\_\_\_

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:  
 Good example of the Queen Anne Styl as it was built in Buffalo. Elmwood Avenue  
 was once completely residential but since the early 1900's many houses have  
 been converted to commercial and other commercial buildings have been built on  
 the street. Mr. Charles C. Mead, Dr. Harry Mead and Mrs. Lizzie M. Prosser lived  
 here in 1888. Charles C. Mead was with Mead and Stewart, lumber at 892 Elk.  
 Harry Mead was a physician.

22. THEME:  
 Religious, Richardson Romanesque

20. Excellent example of the Richardson Romanesque Style. The church was organized by Dr. Copeland on April 1, 1886, with a membership of 23. The church grew so fast that the original chapel was enlarged nine times. The present church building was finished and dedicated in 1898. Two other churches were started by the Richmond avenue church was missionary Sunday Schools; Central Park Methodist and Ontario St. Methodist. The Richmond Avenue church has had missions in Japan, India and Africa and built a hospital in China before 1920.
